

Getting Started

1 - We sent you one or more digital cameras, memory cards, or USB Flash Drives for you to take and collect fun photos while on tour.

Note: Each camera will come with a memory card, spare set of batteries, carrying case, and camera instructions.

2 - You have received information on when to ship our camera(s), memory card(s), or USB Flash drive(s) back to us.

3 - A username and password to log in to www.grouptraveltourvideos.com has been provided to allow you to customize your video titles. You are allowed one opening and as many as three closing titles. We suggest you use 15-20 words or less in each title so the text does not get too small to read. If you do not wish to customize your titles, our standard titles will appear in the video.

4 - If you have a special need date to receive your video's please indicate that date on the title sheet. We will try very hard to meet your dead line.
